

Halo Selects N4 Systems' Field ID for their RFID Based Inspection System

New Orleans, Louisiana – May 12nd, 2008 – Halo has selected the market leading RFID based inspection and safety compliance system, Field ID, to manage all their inspections and safety compliance procedures. Halo selected Field ID for its unmatched focus on safety compliance and its ability to accommodate large customers.

“Field ID and Halo share the same vision, to keep ‘Life First’. Our primary goal is to ensure our customers go home safely every day; and Field ID will allow us to accomplish that task even better”, said Ken Ragusa, President of Halo LLC. “Providing an easy, paperless way for our customers to keep track of their compliance certificates and inspections ultimately leads to a much safer workplace. We look forward to providing our customers a new level of service and safety using Field ID.”

“Halo’s focus on safety accentuates the benefits and features of Field ID. Halo is a great example of how Field ID is helping create safer workplaces.” said Somen Mondal, President & CEO of N4 Systems. “Field ID will allow Halo to take their safety focused services to a new level.”

About Halo:

Halo is the premier supplier of wire rope and industrial supplies to the marine industry and offers testing, inspection, and training services to keep *LIFE FIRST*. Halo’s believes that nothing is more important than *LIFE*. Halo is committed to excellence and providing high-quality products and exceptional customer service. Halo’s personal service and support team are ready to help select the equipment required for a safe work place. Halo starts with tested technology to ensure the quality of every product shipped. In addition to manufacturer’s certifications, Halo pull tests and tags every wire rope and synthetic sling to assure Halo’s rigorous standards are met.

About N4 Systems:

N4 Systems Inc. is the world’s leading provider of automated inspection and real-time safety compliance management software for companies of all sizes. Through its flagship product line, Field ID, N4 Systems offers an integrated product line that combines advanced RFID (radio frequency identification) technology, state-of-the-art wireless handheld mobile computing, highly secure data management, distribution and storage, remote system management and support, and optimized high speed World Wide Web network integration. Field ID customers enjoy the many benefits of reduced operational costs, improved efficiency, accuracy and reliability. By utilizing rapid data distribution and access, fully automated compliance and

inspection forms and secure data storage, Field ID allows for real-time access to current and historical inspection data. Field ID makes the world of paperless safety compliance and inspections a reality.
